Maths – We are learning to recognise and know the value of different coins

Below are all the coins we use in our county.

Make the following amounts by adding coins together (you may use coins more than once):

6p   13p   22p   61p   59p   72p   £1.04

Example: **31p**

10p + 10p + 10p + 1p

Can you make the same amount by using different coins?
