Monitoring Online Activity

BEST FOR WEB FILTERING		BEST FOR LOCATION TRACKING	BEST FOR OVERALL EXCELLENCE
 Norton Family Symantec Norton Family Premier Read Norton Family Review	 Circle Home Plus Parental control device Circle Home Plus delivers good tools for keeping an eye on your home network and protecting your children's phones and tablets, but it is susceptible to workarounds and its reporting features aren't as robust as competitors. Read Circle Home Plus Review	 Mobiclip Mobiclip gives you the basic tools you need to monitor your child's web and app activity, but the lack of sophisticated time- and location-tracking features hold it back. Read Mobiclip Review	 LOCATEMY LocateMy's parental control app for Android and iOS keeps track of your kid's activities and location, but the app is missing social media monitoring of any kind and there's no support for Macs or PCs. Read LocateMy Review
			 Qustodio Parental Control Parental control app Qustodio is a highly configurable, easy-to-manage tool for keeping track of your child's activity on Windows, macOS, Chromebook, iOS, Android, and even Kindle devices, though it is expensive. Read Qustodio Review

provider for their monitoring/safety platforms

Digital Family Agreement

LGFL DigiSafe®

I will:

- Check with mum before getting a new app or game or buying an add-on so she can check it's safe.
- Set up privacy and safety settings on any apps and sites I use and show them to dad, so he doesn't worry.
- Check with mum or dad before going live and explain what I can do to avoid any risks.
- Not post or share any personal information, e.g. mobile, address, to stay private and safe.
- Put my phone down when we're eating together or mum or dad want to talk, as it's disrespectful.
- Turn off notifications when I'm doing homework and at bed time, to help concentrate and sleep.
- Come off my devices an hour before bedtime to unwind and sleep well.

If there are any issues: We will talk about it calmly and respectfully. I may have to show you more about what I am doing on devices, or other consequences.

Parent/carer will: Why?

- Put our devices down when you want to talk to me/us so we can model good behaviour.
- Keep our mobiles away for important family time, e.g. breakfast and dinner so we can have quality time and talk.
- Trust you to manage your screen time sensibly as we agreed, and only say something if I/we are worried, to help you stay safe and healthy.
- Ask permission before sharing any photos of you, to respect your privacy.

If I'm worried by anything: I can tell mum or dad and they won't judge me. I can talk to Mr Patel at school. I can contact Childline or The Mix.

Signed: *Sophia Mum Dad*
 Today's date: *24th March* Date we will review this: *24th May* Download me again and find more support for parents at parentally, left!

Supporting young people with SEND online
 For many young people with Special Educational Needs or Disabilities (SEND), the internet can be a place where they feel safe, calm and in control.

Online safety for families and children with SEND
 Research has found that one of the most positive aspects of being online for LGBTQ+ young people is the opportunity to connect with like-minded people and access specialist support in a way that is more challenging offline.

Childnet

How to support LGBTQ+ young people to stay safe online

Our Digital Resilience research found that LGBTQ+ young people were more likely than others to have asked someone online and to have dated someone they had met online. One in 10 year 10 participants reflected: 'Being able to find people online to talk to, an easy way to meet the waters. To like, experiment or to be, reaffirm your own sexuality and stuff like that.'

This preference for and higher use of technology for meeting new partners does not come without the potential for increased risk and harm.

46

Making things 'safer'

There are a number of websites, 'apps' and support lines available to Professional's, Parents/Carers and Children to make the online world a 'safer' place

But whilst this support may make things 'safer' it is not going to make things completely 'safe'

It is still important to...
