

## Harmful Sexual Behaviour / Child on Child Abuse Checklist for Educational Settings **HOLLY PARK 2025**

### Keeping children safe in Education 2025

*“Sexual violence and sexual harassment can occur between two or more children of any age and sex, from primary through to secondary stage and into college. It can occur also through a group of children sexually assaulting or sexually harassing a single child or group of children. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and face-to-face (both physically and verbally) and are never acceptable. Schools and colleges should be aware of the importance of:*

- making clear that there is a zero-tolerance approach to sexual violence and sexual harassment, that it is never acceptable, and it will not be tolerated. It should never be passed off as “banter”, “just having a laugh”, “a part of growing up” or “boys being boys”. Failure to do so can lead to a culture of unacceptable behaviour, an unsafe environment and in worst case scenarios a culture that normalises abuse, leading to children accepting it as normal and not coming forward to report it*
- recognising, acknowledging, and understanding the scale of harassment and abuse and that even if there are no reports it does not mean it is not happening, it may be the case that it is just not being reported*
- challenging physical behaviour (potentially criminal in nature) such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them*

This checklist is a self-audit tool to support settings in assessing the effectiveness of their policies, procedures, training and overall safeguarding arrangements in respect of harmful sexual behaviour / child on child abuse. In completing this audit, settings should consider relationships in the broadest of terms, e.g. family, friendships, acquaintances and romantic relationships. You may find it useful to use the BRAG (**blue = complete**, **red = endanger of not completing**, **amber = requires attention** and **green = on going and on target**) rating to enable monitoring and challenge.

Settings must work to [Keeping children safe in education 2024 \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/) in respect of safeguarding and **all** staff working with children are advised to maintain an attitude of '**it could happen here**', and this is especially important when considering child-on-child abuse.

We hope you find this checklist useful in reassuring you that your school processes are robust. You will be aware of the 'Everyone's Invited' website and that reported incidents of child-on-child abuse are increasing. This checklist will contribute towards the evidence required by Ofsted.
