

Learning Objectives: Be able to role-play simple financial transactions. Be able to choose the correct value of coins and notes to use and calculate change.
 To be able to make a simple plan for my spending and saving choices and stick to it,

Key Information

Let's go shopping

Cash register

chip and pin

basket

trolley

Know the value of different coins and notes

Know what the correct change will be when buying goods

Saving money is a great habit to get into!

You might save up for holidays, a new toy or game.

Sometimes going without little things means you can enjoy big things later with the savings.

That's another good reason to save.

It means you can have a larger amount to spend on something big or more important to you in the future.

Key Vocabulary

Calculate -The process of adding, subtracting, multiplying, or dividing.

Change - Loose coins you have in your pocket and the difference between what something costs.

Finance -Managing your money

Plan- A set of decisions about how to do something in the future.

Saving - The money that you keep in a money box or a bank.

Value - How much something is worth and how much you pay for something.
