Core Knowledge:

National Curriculum Link: Changes within living memory - Homes

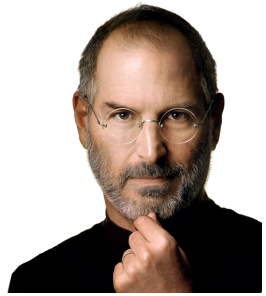

1. What types of homes do we live in today?
2. What types of homes can we find in Friern Barnet?
3. Can you put the homes in Friern Barnet into chronology of different types/ styles of building?
4. Can you identify similarities and differences between past and present houses?
5. Can you identify technology in the home that has changed over time?
6. Can you explain why Friern Barnet has changed over time?
7. What should homes be like in the future?

ey People

Jacob Perkins

Steve Jobs

Samuel Daukes

Cross Curricular Links

Link to Geography—What is London?

What types of homes do we live in today?

Homes from all different time periods

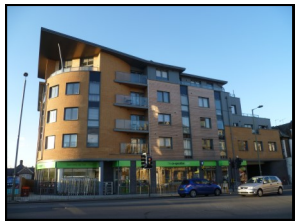

We live in:

Houses	Terraced
Flats	Block of Flats
Semi-detached	Above a shop
Detached	bungalow

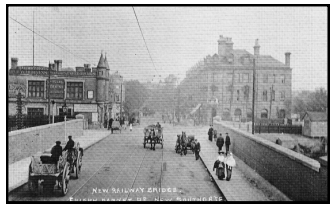

Can you identify similarities and differences between past and present houses?

Kitchens in Victorian times often had a range for cooking and no fridge. Kitchens in the 1940s were often small and basic. Not many homes had a fridge, so people tried to keep items fresh, by storing them in a cupboard, called a larder. But the larder wasn't as cold as a fridge. So, many people had to go to their local shop each day to buy what they needed. Back then, most cooking and cleaning jobs at home had to be done by hand, so they took a lot longer than they do now. By the 1980s, most homes had lots of electric gadgets, like washing machines, microwaves and vacuum cleaners. Making cooking and cleaning jobs much quicker! A lot of homes also had fridge freezers by then, so food and drink could be frozen at home or kept fresher for longer.

What types of homes can we find in Friern Barnet?

Victorian and Edwardian

1930's (Train station)

Post 2000s homes

School buildings

Can you identify technology in the home that has changed over time?

Electric lighting, Indoor toilets, Radio, TVs, Computers, Phones, Tablets, Internet

We live in homes which have a vast array of technology. Most of these have been invited since 1900.

These items have changed the way people use their homes and time. They have also changed the way people can access information.

Have these changes always had positive affects?

Can you put the homes in Friern Barnet into chronology of different types/ styles of building?

Buildings in the local area have also changed their purpose over time. So although we may see it as being one thing today, in the past it was used for a different purpose.

Bank—British Legion

Hospital—homes/gym

Hotel—co op and homes

Town Hall—homes

Can you explain why Friern Barnet has changed over time?

That Friern Barnet has changed over time. A Hospital was built and so homes for the doctors and nurses were built. That new shops have been built for them to buy goods in. Churches were built for the people to worship in. Schools were built for the children living in the homes. When the railway came out to Arnos Grove more people wanted to live in the area. More houses were built. That there are lots of different homes in Friern Barnet because they were built at different times and during different fashions. That buildings have changed their function over time because the needs in the local area changed. Schools needed to get bigger, more shops were needed another station was built as more people worked in the city.
